FROM: Iowa Department of Human Services, Iowa Medicaid Enterprise (IME)

RE: Complex Pharmaceutical Oversight Program

EFFECTIVE: January 1, 2015

The IME is pleased to announce the availability of a new patient care initiative; the Complex Pharmaceutical Oversight Program (CPOP). This program provides oversight of clinically complex and high-cost drugs, and is designed to reduce waste, enhance medication adherence and improve clinical outcomes.

The CPOP is a patient-focused and pharmacist-driven program, which uses techniques that are not feasible for a traditional prior authorization (PA) program. Iowa Medicaid members receiving complex and high-cost drugs will be proactively identified through pharmacy claims encounter data by the IME. Once enrolled in the program, patients will speak directly with an IME pharmacist about their current medication regimen. The pharmacist will assess medication adherence and administration techniques, adverse events, indications, dosing, duration of therapy, and monitoring parameters. Prescribers may be contacted by a member of the CPOP team to discuss medication-related issues, or to request additional patient records. Evidence-based guidelines and clinical trials will be used to support program interventions.

The CPOP supports the prescriber/patient relationship, augments existing care management efforts, and is available free of charge to Iowa Medicaid members.

If you have questions, please contact the CPOP at 515-256-4874 (toll-free 877-776-1567), or by email at cpopinfo@dhs.state.ia.us.
